

Michigan Association of Municipal Clerks

Dear MAMC Members,

I hope this message finds you well.

Attached are two documents we received from the U.S. Postal Service on September 16:

1. [USPS Industry Alert](#) — The alert confirms that the Postal Service will not implement or enforce the new federal ballot-mail rule for the 2026 General Election. USPS processes and procedures will remain consistent with previous election cycles. If you are not already subscribed to USPS Industry Alerts, I encourage you to sign up; they are a valuable source of timely information.
2. [USPS Election Mail Stand-Up Talk](#) — This communication was distributed to USPS employees and reinforces internally that Election Mail will be “business as usual” for November. It may be helpful if questions arise from your local carrier, postmaster, Business Mail Entry Unit, or the public.
