March 2026

Prescribed Burn Planned at Rose Oaks County Park

Holly, MI – Oakland County Parks and Recreation will conduct a prescribed burn this spring at Rose Oaks County Park, 10501 Buckhorn Lake Road. The 13-acre burn is planned for early spring (March through mid-to-late April), depending on weather conditions.

The prescribed fire will help promote native plant growth, control woody overgrowth, and maintain habitat for rare and threatened species, including the Eastern Massasauga Rattlesnake and Blanding’s Turtle.

Burns are conducted only under specific weather conditions and are carried out by trained personnel with fire suppression equipment on site. Nearby residents and local authorities will be notified in advance, and temporary trail closures may occur during operations.

Prescribed fire is a safe and effective land management tool that supports ecosystem health and reduces wildfire risk.
